

WARNING!

If you purchase a “new” LENNAR home your home may have the following condition issues:

- 1.) Water leaks.
- 2.) Mold.
- 3.) No hot water.
- 4.) Excessive stucco cracking.
- 5.) Improperly installed insulation.
- 6.) Improperly installed balcony railings.
- 7.) Improperly installed concrete.
- 8.) Unlevel floors – more than a ¼ inch over 10 feet.
- 9.) Cabinet drawers that rub or don't close all the way.
- 10.) Crooked shower enclosures and tubs.
- 11.) Crooked counter tops and vanity.
- 12.) Wavy and bowed walls.

Bottom line: Do not be fooled into buying a LENNAR home.
LENNAR does not give a shit about you or the quality of workmanship that went into your “new” home.
